DECLINING JOBS

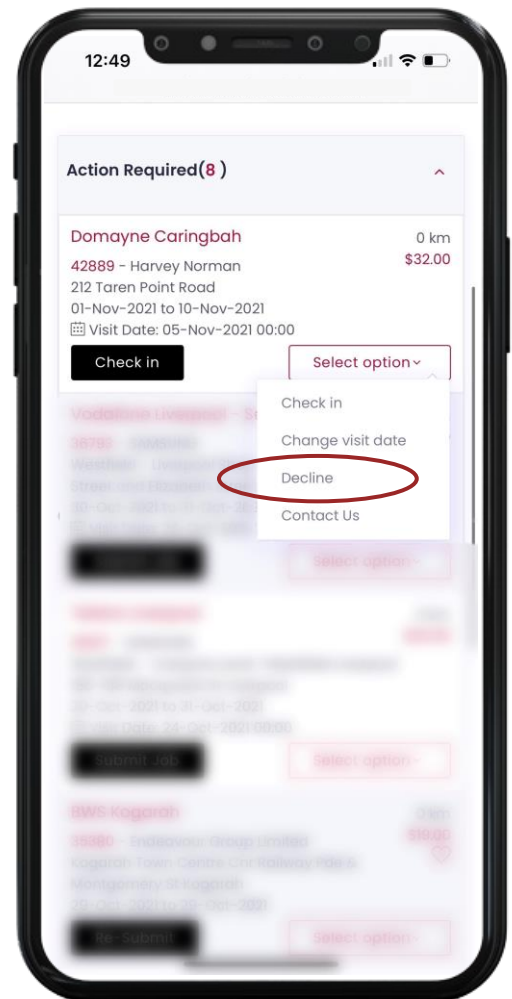

DECLINING VISITS

If you are unable to complete a visit on your selected visit date, you can take different actions depending on the job date range & your availability

1. **Change** your visit date
2. **Decline** the job

Declining too many jobs can affect your ShopperNOW Stats and KPIs. You can keep track of your ShopperNOW stats on your **Home page**.

To **Change Visit date** click **Select Options** and choose the relevant selection

DECLINE VS WITHDRAWN

DECLINING JOBS

Communication is key!

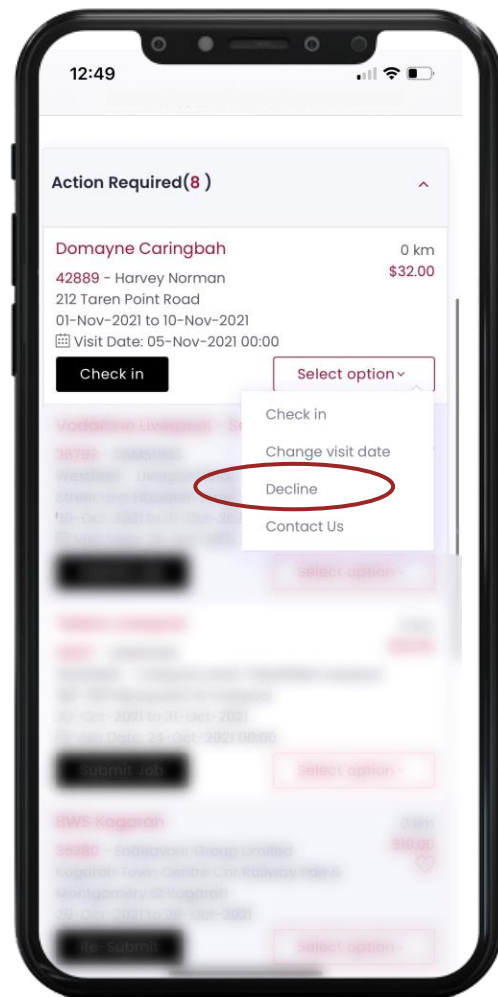

Simply go to **My Jobs** and select **Decline** from the option menu. This will send the job back into the Job Board for other shoppers to accept.

If your job is within the final days of activity, you will be required to send us a message to let us know you are unable to complete the visit. This allows us to act quickly and find another shopper with urgency.

WITHDRAWN JOBS

Jobs are withdrawn if you have failed to complete the job on the selected visit date. If you are unable to complete the visit, it is imperative you decline the visit to avoid penalty.

If jobs are withdrawn for you, you have not met your KPI's and will leave a penalty against your profile. If you do not meet this KPI you may be issued with a warning. After two warnings you may not be offered any further work.
